Pass %- 93.33%

● Conclusion and Recommendations:

Pass Rate: 93.33%, Application Performs Well with Minor Improvements Required

● Issues Found

1. Product Not Displayed in Shopping Cart (3b)
After adding a product to the cart and opening the Shopping Cart page, the selected product was not displayed as expected.

2. Checkout Validation Issue (4b)
When the **First Name** field was left empty during checkout, the expected validation message was not displayed correctly.

● Recommendations

1. Improve Cart Synchronization
Ensure that products added to the cart are correctly synchronized and displayed on the Shopping Cart page.

2. Strengthen Checkout Validation
Validate all mandatory checkout fields and display clear error messages before allowing the user to continue.
